Sergio Sayago publishes a research book

Sergio Sayago [https://sergiosayagoblog.wordpress.com], colleague and member of the GRIHO group publishes the research book "Cultures in Human-Computer Interaction [https://link.springer.com/book/9783031302428]"

The book is published in a "book series" of great international prestige; its publisher is an important and recognized author in my research area.

The book is part of the book series: Synthesis Lectures on Human-Centered Informatics [https://www.springer.com/series/16906] (SLHCI) whose editor is the recognized John M. Carroll

Congratulations Sergio !!!
